

GAME CARD n°1 - CORRECTIONS

Personal Information

Created by Action Innocence Monaco, 2014

- What is personal information ?

Personal Information is information that gives indications about your identity and your daily life (for example: your first name, your last name, where you live, your birthday, your age, your school, your phone number, what you look like, personal information about your friends and family, etc.).

When all this information is put together like a puzzle, we can find out a lot about you. That's why it's important not to share these online! You can talk about them with your friends and family, but not on internet or applications that use internet!

- Circle the sentences which contain personal information :
We've circled your personal information in black, and personal information you would be giving about others in red!

My name is Lisa.

It's raining.

I love to play at Place d'Armes.

I'm 10 years old.

My mummy's name is Elisabeth.

GO AS Monaco !!!

I do gymnastics at Fémina Sport.

My teacher's name is Mrs Ross.

I like going to the swimming pool with my brother.

Ariana Grande is a great singer.

Tomorrow, I'll be going to McDonald's with David.

I am happy.

- Imagine that you are writing these sentences on internet (online chatroom on a video game, snapchat, instagram, facebook, youtube comments or video, whatsapp profile, musical.ly profile, etc.). What information could other people find out from what you're saying ?
(there may be more than one correct answer per question - *we've written them in green!*)
